1   QualityRelease 5065.004 | User

1.1   QualityRelease 5065.004 | Introduction

Dear SwissSalary customers,
Dear SwissSalary partners,

This QualityRelease contains adjustments and corrections for customers who are already using at least SwissSalary version 5065.000.

For further information on the content of versions 5065.000, 5065.001, 5065.002, 5065.003, and 5061.401, please refer to the corresponding manuals.

Customers are responsible for performing SwissSalary updates. Our support team or your Dynamics365 partner can assist you if necessary. This responsibility also lies with customers for SwissSalary365 (Cloud), and SwissSalary does not perform updates automatically.

Your SwissSalary team

1.2   Employee

1.2.1   Employee card | TimeMachine Location

Task #6392 | 5065.004

If the postal code is adjusted via TimeMachine but the tax location remains within the same canton, the subsequent field "IT canton" is not filled in.
If there is an adjustment outside the canton, the subsequent field "IT canton" is displayed and adjusted.

1.3   Payroll

1.3.1   TapBoard | Project with project task

Task #6549 | 5065.004

Adding a project with project tasks to TapBoard used to cause an error. The error message when creating new projects via TapBoard: 'Employee card' does not exist. Identifying fields and values: Employee N° = '' has been fixed.

1.3.2   Provisional Payroll | SwS EasyRapport Import

Task #4044 | 5065.004

In Update 5063.000, a warning message was implemented to indicate that there are still items in the EasyRapport import journal for the corresponding payroll period when a payroll run is settled. This warning message was also displayed when an provisional Payroll was performed. This has now been corrected.

1.4   Reports

1.4.1   Benefit evaluation | mid-month settlement date

Task #6550 | 5065.004

Even if the settlement date is not the last day of the month, the benefit statement will be displayed correctly.

1.4.2   Time evaluation | Vacation in days

Task #3961 | 5065.004

Previously, the vacation value calculation in the "Time Evaluation" report could not be displayed in days. This has now been corrected.
When displaying vacation in days, a data record is required in the "Hours per day" field. This in turn affects the calculation of the CHF value for overtime, flexitime, etc.

1.5   Salary declaration

1.5.1   Salary declaration | Time span Transmission

Task #6658 | 5065.004

The time span has been extended for wage reporting. This means that it is possible to wait longer for a response and the reports are less likely to result in an error.

1.5.2   Salary declaration | IT date calculation

Task #6655 | 5065.004

The error messages concerning date errors in the ELM withholding tax report are now more detailed and are issued with the Employee N°.

1.6   Interfaces

1.6.1   UKA 9.1 | Organizational units

Task #6900 | 5065.004

The specification of the superior position in the UKA 9.1 interface with type organizational units has been adjusted. Now, the validity data of the superior position is also transferred.

1.7 Administration

1.7.1 Adjust child allowances | Effective date

Task #5422 | 5065.004

If entitlement to an education allowance is recorded for a child before they reach the age of 16, the validity date will no longer be reset after running the report for adjusting child allowances.
