1 QualityRelease 5067.002 | User

1.1 QualityRelease 5067.002 | Introduction

Dear SwissSalary Customers
Dear SwissSalary Partners

This Quality Release includes updates and fixes for customers who are already running at least SwissSalary version 5067.000.

For further information on the content of version 5067.001 please refer to the corresponding manual.

It is the customer's responsibility to perform SwissSalary updates. Our support team or your Dynamics 365 partner can assist you if needed. This responsibility also applies to SwissSalary 365 (Cloud), and SwissSalary does not perform updates automatically.

Your SwissSalary Team

1.2 Personal

1.2.1 Employee card | Allocation Group and Department

Task #12179 | 5067.002 [1.5067001.2002.0]

Applies exclusively to customers with on-premises installations:

In SwissSalary version 5067.000, an error message appeared indicating a lack of permissions when attempting to change the department or allocation group for an existing employee. This error has been fixed.

1.3 Payroll

1.3.1 Security Filter | Tapboard Dimensions

Task #12160 | 5067.002 [1.5067001.2002.0]

In SwissSalary version 5067.000, changes were made to the security filters that caused errors for users with allocation group filter.

It was not possible to add new dimensions in TapBoard. This issue has been resolved.

1.3.2 Security Filter | Tapboard hidden rows

Task #12163 | 5067.002 [1.5067001.2002.0]

In SwissSalary version 5067.000, changes were made to the security filters that caused errors for users with allocation group filter.

It was not possible to add hidden rows from the EasyRapport group in TapBoard. This bug has been fixed.

1.4 Salary Declaration

1.4.1 EMA | Resignation date

Task #11931 | 5067.002

In the EMA (Enrollment/Change/Withdrawal) records, a validity date for withdrawals was not transmitted correctly. This has been corrected.

1.5 KLE

1.5.1 Security Filter | Create KLE Case

Task #12198 | 5067.002 [1.5067001.2002.0]

In SwissSalary version 5067.000, changes were made to the security filters that caused errors for users with allocation group filter.

Users with an allocation group filter could not create KLE cases if a KLE case had not already been created for that person.

Now, a user with an allocation group filter can once again create a new KLE case, regardless of which user created the previous KLE case.

1.6 SwissSalary Direct

1.6.1 SwissSalary Direct | Rollout Date

Task #12298 | 5067.002 [1.5067001.2003.0]

Although registration with SwissSalary Direct had been completed, the registration code continued to appear on the payslip because the rollout date had not been entered into the employee data. This error has been fixed.

1.7 SwissSalary Construction

1.7.1 Security Filter | Baubit Import

Task #11987 | 5067.002

In SwissSalary version 5067.000, changes were made to the security filters that caused errors for users with allocation group filter.

When importing BauBit data, the "Journal batch name" column was not fully completed. This error has been fixed.

1.8 Technical Information

1.8.1 Employee List | Table view

Task #11902 | 5067.002

In SwissSalary version 5067.000, the employee list could no longer be opened in table view via the page review feature. A FlowField has been corrected, and the table view can now be accessed again.
